

EIC

DEID 3/1

To ensure the effective production and coordination of foreign economic intelligence relating to the national security.

1. Policies

No complete separation of interests; full and free interchange of information; no one department indisputable authority; each agency shall maintain competences for producing departmental intelligence and supplementing intelligence produced by others; each agency endeavor to coordinate with other agencies.

2. Allocation of Primary Production Responsibilities

General allocation of primary responsibilities for producing economic intelligence among ICB agencies.

3. Responsibilities for Economic Intelligence Coordination

- a. (1) - Review divisions of responsibility and recommend changes.
- (2) - Survey facilities and arrangements available to support production and make recommendations.
- (3) - Prepare and circulate consolidated periodic lists of intelligence and review external research projects proposed involving more than 5000.
- (4) - Review needs for economic research and develop ways to correct recognized deficiencies.
- (5) - Review economic intelligence collection requirements and of the distribution and processing of intelligence information.
- (6) - Ensure that intelligence community is supported by full knowledge and talent available in U.S. to the Government.
- (7) - Produce, as appropriate, interdepartmental economic intelligence on subjects which transcend the competency of a single agency.
- b. This provides for membership, chairmanship and secretariat.
- EIC will set up subcommittees and working groups as may be found necessary.
- d. Provide for liaison through Chairmen of EIC, SIC, GIC and JAEIC.

SIC

ICID 3/5

for the production and coordination of scientific and technical intelligence.

1. Policies

Substantively the same as for EIC.

2. Production Responsibilities

To insure capabilities of all agencies are effectively utilized in the common interest subject to continuous program of coordination to promote an integrated effort.

- a. CIA shall produce S&T intelligence as a service of common concern.
- b. The other departments and agencies shall produce S&T intelligence pertinent to their departmental missions.

3. Establishment of the SIC

To coordinate S&T intelligence activities of the Government.

4. Mission of the SIC

To foster, develop and maintain a coordinated community approach in the field of S&T intelligence (except for AEC and GMA intelligence).

- a. provide for exchange of S&T information.
- b. to recommend S&T intelligence objectives, establish priorities on substantive needs; review collection and production efforts.
- c. To produce: (1) drafts of NIEs (2) other contributions to NIEs (3) other interdepartmental intelligence as required.
- d. Determine important deficiencies and make recommendations.
- e. to provide a mechanism for coordinating production efforts in the specifically pertinent sections of the NIE.
- f. to provide staff support, as required by USIB, for international conference on S&T intelligence.

5. Membership of the SIC

6. Chairmanship of the SIC

7. Subcommittees of the SIC

The SIC may establish working groups as appropriate and subcommittees as approved by USIB.

8. Inter-Committee Coordination Responsibilities

Provides for liaison between SIC, EIC, JAEIC and GIC.

SIC should take the initiative in coordinating with JAEIC and GIC. This does not imply a supervisory role over JAEIC and GIC.

2 of 2

GMATIC
